LITERACY WORKSHOP

SATURDAY, SEPTEMBER 30 | 9:00 AM - 12:00 PM

Description:

Let's take a deeper look at the updates to Guided Reading: the protocol, self reflection tools and how the component is made stronger with utilizing the reader's notebook as a tool for differentiation during independent reading. Leave with an example of how to set up the readers notebook! We'll also be accessing the resources Jan Richardson provides as part of her new text. View Jan working with students within specific stages of development. Use this new understanding to tweak the protocol for the range of readers you teach!
