

Replicating School Application Interview Questions

Answers to be compared to application answers and are intended to supplement application written answers.

Each question will receive a score between 1 and 4. A proposed new school must demonstrate a minimum of Effective (2 points) for each question and must earn a minimum of 60 points or 75%. The score of this evaluation does not guarantee that a school will be recommended for sponsorship.

Exemplary – 4 Points

The proposed school exceeds expectations and has clearly demonstrated the capacity of operating a successful community school. The school has clearly outlined expectations of the components and has exceeded review criteria established for this standard.

Effective – 3 Points

The proposed school meets the minimum expectation for an effective and successful community school. The school has outlined expectations of the component and has met review criteria established for the standard.

Ineffective – 2 Points

The proposed school does not adequately address the component question or meet the established criteria. It is unclear whether the school is likely to be successful without additional work or development.

Poor – 1 Point

The proposed school does not address the component questions and fails to meet the minimum expectations set by the review criteria. The application is poorly researched, and the school as presented would be unlikely to succeed.

Mission and Philosophy

(Maximum 16 points)
